Chullin 42 – Good Morning Raboisai

1️⃣ Opening Mishnah – List of Treifos

Gemara:

👉 The Mishnah lists multiple cases of **treifos**

👉 Main theme:

- Many cases involve a **puncture (hole)** in vital organs

📌 Examples Mentioned

- Hole in the **esophagus**
- Hole in the **brain membrane**
- Hole in the **heart reaching the cavity**
- Severed **spinal cord**
- Missing **liver entirely**
- Hole in the **lungs**
- Hole in the **stomach / intestines**
- Hole in the **gallbladder**

2️⃣ נקב – יסוד (Puncture)

👉 The Gemara groups many cases under one idea:

👉 **נקב (a hole)**

📌 Principle

👉 If a vital organ is:

- Punctured through and through

👉 It becomes:

- טריפה

3️⃣ Special Case – Liver

👉 If entire liver removed → טריפה

👉 If small amount remains → כשר

📌 Reason

👉 Liver can regenerate

👉 Therefore:

- Partial damage is not fatal

4️⃣ Lungs

👉 If lung:

- Has a hole
- Or missing part

👉 טריפה

5️⃣ Digestive System

👉 Animal has multiple stomachs

👉 Key rule:

- If hole goes to **outside** → טריפה
- If between internal sections → not necessarily a problem

6️⃣ Fall (נפילה)

Case:

- Animal falls from height

📌 דין

👉 Concern:

- Internal damage (crushed organs)

👉 Must:

- Wait 24 hours

👉 If survives → כשר

👉 If not → טריפה

7️⃣ Broken Ribs

👉 If most ribs broken

👉 טריפה

8️⃣ Attack by Animal (דריסה)

👉 If attacked by predator

👉 Concern:

- Internal infection / damage

📌 **חילוק**

- Small animal → even smaller predator
- Large animal → requires stronger predator

9️⃣ Final Rule in Mishnah

👉 כלל:

- Any condition that **cannot survive** → טריפה

🔟 Source for Treifa

ריש לקישasks:

👉 Where do we see treifa in Torah?

📌 **Answer**

From פסוק:

👉 Only animals that can **live normally** are permitted

👉 Anything that cannot survive → אסור

1️⃣1️⃣ **מחלוקת**

👉 Does a טריפה live or not?

- One view → cannot live
- Other view → can live

📌 **נפקא מינה**

👉 Even if it lives:

- Still אסור

1️⃣2️⃣ **מספר הטריפות – 18**

👉 Tradition:

- There are **18 treifos**

👉 Even though many cases listed

1️⃣3️⃣ **Resolution**

👉 Gemara groups cases together

📌 **Example**

👉 All puncture cases:

- Count as **one category**

👉 Other cases:

- Added or grouped

👉 Final total:

- Remains 18

1️⃣4️⃣ Additional Cases

Gemara brings:

- Broken limb
- Missing vertebrae
- Organ shrinkage
- Joint damage
- Kidney disease
- Flesh damage

📌 Question

👉 Why not more than 18?

📌 Answer

👉 Some cases:

- Are not treifa
- Or included in existing categories

1️⃣5️⃣ יסוד הסוגיא

- Many cases exist
- But grouped into categories
- Total remains 18
- נקב is major category
- Survival defines treifa

🔑 **Key Takeaways**

- Many treifos are based on punctures in vital organs
- A full hole in a critical organ makes the animal treifa
- Some organs (like the liver) can partially recover
- Internal vs external damage is a key distinction
- Falling or attack can create treifa due to internal damage
- The defining rule is whether the animal can survive
- There is a tradition of 18 categories of treifos
- Multiple cases are grouped together to maintain this number
