**Chullin 58 – Good Morning Raboisai**

### 1️⃣ 12-Month Rule

Gemara:

👉 כלל:

- If an animal lives **12 months** → not a טריפה

---

### 📌 Challenge

👉 Some say:

- Even a טריפה can live long

👉 Can:

- Give birth
- Gain weight

---

### 📌 מסקנה

👉 Even if it survives:

- Still considered טריפה

👉 Survival ≠ proof

---

### 2️⃣ Eggs of a Treifah Chicken

👉 Case:

- Chicken becomes טריפה

---

### 📌 First eggs

👉 Eggs already inside:

- אסור

---

### 📌 Reason

👉 Like fetus:

- Part of mother

---

### 3️⃣ Future Eggs

👉 Eggs produced later

---

### 📌 דין

👉 מותר

---

### 📌 Reason

👉 Caused by:

- Male + female

👉 מותר ← זה וזה גורם

---

### 4️⃣ Exception

👉 Egg produced:

- Without male

---

### 📌 דין

👉 אסור

---

👉 Because:

- Comes entirely from טריפה

---

### 5️⃣ Offspring of Treifah

👉 Case:

- Animal becomes טריפה

👉 Then gives birth

---

📌 **מחלוקת**

- One view → אסור
- One view → מותר

---

📌 **יסוד**

👉 Question:

- Is fetus part of mother
- Or independent

---

6️⃣ **Practical Point**

👉 Same discussion applies:

- To eating animal

---

👉 Not only:

- Korban

---

7️⃣ **Safek Treifah**

👉 Case:

- Not sure if טריפה

---

📌 **Solution**

👉 Wait:

- If lays eggs → not טריפה

👉 If not → suspect טריפה

---

### 8️⃣ Eggs Already Inside

👉 First batch:

- Always אסור

---

👉 Until proven otherwise

---

### 9️⃣ Insects Rule

👉 כלל:

- Creatures without bones

---

👉 Cannot live:

- 12 months

---

### 📌 Result

👉 If found after 12 months:

- Newly formed

---

👉 Therefore:

- May be מותר

---

### 🔟 Worms in Fruit

👉 If formed:

- While attached to ground → אסור

👉 After detachment → מותר

---

### 1️⃣1️⃣ Mosquito / Insect Life

👉 Statement:

- Very short lifespan

---

👉 Even if expressions say longer

---

👉 Not literal

---

### 1️⃣ 2️⃣ Extra Limbs

👉 Animal with:

- Extra limb

---

### 📌 כלל

👉 “Anything extra = like removed”

---

### 📌 חילוק

👉 Front leg missing → כשר
👉 Back leg missing → טריפה

---

👉 Therefore:

- Extra back leg → טריפה
- Extra front leg → כשר

---

### 1️⃣ 3️⃣ Double Organs

👉 Case:

- Two internal organs

---

### 📌 דין

👉 Not automatically טריפה

---

👉 Depends:

- Structure and function

---

### 1️⃣4️⃣ Extra Tubes

👉 Additional passage between organs

---

### 📌 דין

👉 If functional → כשר

---

👉 If abnormal structure → problem

---

### 1️⃣5️⃣ Intestines Case

👉 Two exits

---

### 📌 דין

👉 If merge properly → כשר

👉 If separate → טריפה

---

### 📌 שיעור

👉 Must be within:

- One finger width

---

### 1️⃣6️⃣ Final יסוד

- Survival does not define טריפה
- Eggs follow mother unless new cause added
- זה וזה גורם creates leniency

- Structure determines halacha
- Extra parts judged as if removed
- Timing (before/after) is critical

---

🔑 **Key Takeaways**

- Living 12 months is a strong indicator but not absolute proof
- Eggs inside a treifah chicken are forbidden, later eggs can be permitted
- This depends on whether both male and female contributed
- Offspring of a treifah is subject to dispute
- Insects without bones cannot survive 12 months
- Worms in fruit depend on when they developed
- Extra limbs are treated as if something is missing
- Internal structure and correct formation are key to determining status

---
