Menachos 108 – Good Morning Raboisai

1️⃣ Six Shofaros (Pushka Boxes)

- There were **6 special Shofaros** for Nedavos

2️⃣ Reason #1 – Avoiding Arguments (Chizkiyah)

- Kohanim were divided by **days**

👉 Problem:

- Some days had many korbanos → more profit
- Some days had few → less

👉 Solution:

- Separate pushkas → each group gets its share
- Prevents **jealousy and fighting**

3️⃣ Reason #2 – Prevent Money Spoiling

- Money left sitting too long can go bad

👉 Solution:

- Multiple pushkas used in rotation
- Keeps money moving and usable

4️⃣ Reason #3 – Different Types of Korbanos

- 6 types:
    - Par / Egel
    - Ayil / Keves
    - Se'ir / Gdi

👉 Each type needs its own category

5️⃣ Shitas Rebbi vs Chachamim

- **Rebbi** → must match exact type (small ≠ large)
- **Chachamim** → larger can replace smaller

👉 According to Rebbi → need separate pushkas

6️⃣ Additional Categories

Pushkas also used for:

- Leftover **Chatas money**
- Leftover **Asham money**
- Nazir / Metzora cases
- Other leftover korban funds

7️⃣ Machlokes – What Goes in Pushkas

Two approaches:

- Include leftover of **Kohen Gadol Mincha**
- Or include leftover of **bird korbanos (Kinnim)**

👉 Difference is what category gets its own pushka

8️⃣ Leftover Mincha

- Some leftover Mincha:

👉 Goes to **Nedavah**

- Others:

👉 Must be **left to spoil (Yirkav)**

9️⃣ Source of "Yirkav"

- Based on Pasuk of **Minchas Chotei**

👉 Only specific Mincha is treated like full Chatas

🔟 Harei Alai vs Harei Zu

Two types of Neder:

- **Harei Alai** → obligation on the person
  👉 Must replace if lost
- **Harei Zu** → specific animal
  👉 No replacement if lost

1️⃣1️⃣ If Animal Gets a Mum

- Can sell it
- Money becomes Kadosh

👉 Then:

- Can buy replacement korban

1️⃣2️⃣ Changing the Korban

Cases:

- One → can become two
- Two → can become one

👉 Depends on situation

1️⃣3️⃣ Shitas Rebbi

- Must stick to **original wording**

👉 Even if new option is better

1️⃣4️⃣ Reason – Neder Precision

- Changing:
  - Size
  - Type
  - Value

👉 May invalidate fulfillment

1️⃣5️⃣ Type Changes (Animal Types)

- Can sometimes switch:

👉 From one type to another

But:

- Not always allowed depending on case

1️⃣6️⃣ Problem of Multiple Korbanos

- One korban → one Mincha
- Two korbanos → two Menachos

👉 Creates mismatch

1️⃣7️⃣ Key Limitation

- Cannot create:

👉 Extra obligations not in original Neder

1️⃣8️⃣ Mixed Language Case

- “Harei Zu Alai”

👉 Combines:

- Specific animal + personal obligation

Result:

- **Becomes obligation (Achrayus applies)**

1️⃣9️⃣ If Responsibility on Value

- If he accepts responsibility on **money**

👉 Must replace if lost

🔑 **Key Takeaways**

- Shofaros were structured to prevent conflict and manage funds
- Exact type of korban can affect where money goes
- Leftover funds have specific halachic destinations
- “Harei Alai” vs “Harei Zu” defines responsibility
- Rebbi requires strict adherence to original neder
- Changing korban type/size can invalidate the neder
- Precision in wording is critical in korban obligations
