Menachos 83 – Good Morning Raboisai

1️⃣ Source for Buying Korban from Chullin

The Gemara brings a long **pasuk ("זֹאת הַתּוֹרָה…")**, where each word teaches a דין.

Goal:
👉 To prove that certain korbanos (e.g. Korban Pesach) must be purchased from **chullin (own money)**, not from maaser sheini

---

2️⃣ Limud from "Mincha"

From the word **Mincha**:

- Mincha is eaten only by **male Kohanim (זכרי כהונה)**
- This teaches similar דין for related korbanos

3️⃣ "Chatas" – Absorption (בליעה)

Extra word "Chatas" teaches:

- Korbanos can become kadosh through **absorption (בליעה)**
- If one korban absorbs from another → it takes on its halachos

---

4️⃣ "Asham" – No Kedusha in Fetus

From Asham:

- A fetus (ולד) does NOT have kedusha

Reason:

- According to this shita → fetus only becomes kadosh **after birth**

5️⃣ "Miluim" – Burning Leftovers

From Miluim:

- Leftover meat must be **burned**
- But **live animals (bal chai)** are NOT burned

6️⃣ “Shlamim” – Pigul Extends to Nesachim

From Shlamim:

- If a Kohen has improper intent → korban becomes **pigul**
- This pigul also affects the **wine/flour (nesachim)**

7️⃣ Key Limud – Rabbi Akiva

Rabbi Akiva learns from **Chatas**:

👉 Just like Chatas:

- Must be from **chullin**

👉 So too:

- Other korbanos (including Pesach) must be from **own money**

8️⃣ Additional Halachos Learned

From same limud:

- Shechita must be **by day (ביום)**
- Avodah done with **right hand**

(Note: these have other sources too – mentioned here “אגב”)

9️⃣ Leftover Korban Pesach → Becomes Shlamim

If a Korban Pesach cannot be used:

👉 It becomes a **Shlamim**

Three cases:

1. **After Pesach + over 1 year old**
2. **After Pesach but still within year**
3. **Before Pesach but slaughtered too early**

All require separate pesukim → each case needed

🔟 Extra Korban (Moiser Pesach)

If extra animal remains (e.g. original found after replacement):

👉 It becomes a **Shlamim**

1️⃣1️⃣ Multiple Korbanos on Pesach

A person may bring several korbanos:

- Korban Pesach
- Chagigah of 14th
- Olas Re'iyah
- Other obligations

🔑 Key Takeaways

- Korbanos must be bought from **chullin (not maaser produce)**
- Kedusha can transfer via **absorption**
- Fetus does not automatically have kedusha (in this shita)
- Pigul affects even **nesachim**
- Leftover Korban Pesach → always becomes **Shlamim**
- Many pesukim each teach specific nuanced cases
