Menachos 89 – Good Morning Raboisai

1️⃣ Todah – Amount of Oil

Pasuk says **"בשמן" twice**:

- Without repetition → would think **1 Log oil (like all Menachos)**
- Double expression → **reduces to Half Log**

Rule:

- Ribui after Ribui → comes to **limit**

2️⃣ How Oil is Divided

Todah has 3 types:

- Chalos
- Rekikin
- Revuchah

From extra "בשמן":

👉 Revuchah gets **more oil**

Distribution:

- Total = Half Log
- Split:
    - Chalos → 1/8 Log
    - Rekikin → 1/8 Log
    - Revuchah → 1/4 Log

3️⃣ Rebbi Akiva

Disagrees:

👉 Entire דין is **Halacha L'Moshe MiSinai**

Includes:

- Todah = Half Log oil

- Revuchah gets Revi'is Log
- 11 days of Zivah

4️⃣ Mincha Oil – Machlokes

Pasuk: "Isaron balul baLog Shemen"

- Chachamim:
  - Every Isaron → needs 1 Log
- Others:
  - Even large Mincha → only 1 Log total

5️⃣ Poor Metzora

- Regular Metzora → 3 Korbanos → 3 Isaron
- Poor Metzora → 1 Korban → 1 Isaron

👉 Cannot exempt entirely from Mincha

6️⃣ Minimum Mincha

From "LaMincha baLog Shemen":

👉 Minimum donation:

- Must be at least **1 Isaron (requires 1 Log oil)**

7️⃣ Measurements from Hin

Hin = 12 Log

Therefore:

- Half Hin → 6 Log (Par)
- Third Hin → 4 Log (Ayil)
- Quarter Hin → 3 Log (Keves)

8️⃣ Menorah Oil

From “מערב עד בקר”:

👉 Must last entire night

Shiur:

- Half Log per lamp

9️⃣ How Shiur Was Determined

Two approaches:

- Start from large → reduce
- Start from small → increase

Consideration:

- Avoid wasting oil vs. not acting cheaply in Mikdash

🔟 Mixing Nesachim

- Bull & ram → can mix (same ratio)
- Sheep → cannot mix (different ratio)

If mixed:

- After proper mixing → kosher
- Before mixing → pasul

1️⃣1️⃣ Wine Mixing

Final explanation:

- Mixing refers to **wine only**

Rules:

- If oil/flour already offered → can mix wine
- If not → do not mix (concern for mixing oil/flour)

1️⃣2️⃣ Omer Korban

- Comes with **2 Isaron flour**
- But:
    - Wine remains standard (not doubled)
    - Oil also follows wine

1️⃣3️⃣ Asham Metzora (Wrong Intent)

If brought not lishmah:

- Continue Avodah
- Must still bring **Nesachim**

Otherwise:
👉 Korban becomes pasul

1️⃣4️⃣ General Rule

If Korban done incorrectly:

- Continue Avodah as valid Korban type
- Must include all required components

🔑 Key Takeaways

- Todah oil = Half Log (from repeated "בשמן")
- Revuchah gets larger portion
- Major machlokes on Mincha oil amounts
- Hin = 12 Log foundation
- Menorah requires Half Log per lamp
- Mixing depends on ratios and stage
- Wrong intent requires continuing full process
